SKILLS

- **Languages:** C++, Python, Java, JavaScript, Go
- **Frameworks:** NodeJS, ReactJS, Express, HTML5, CSS3, Tailwind CSS, RESTful APIs
- **Tools/Platforms:** MySQL, MongoDB, Postman, Git, GitHub, AWS, Docker, Prisma ORM, Redis
- **Core Topics:** DSA, Operating System, DBMS, OOPs, Computer Networks
- **Soft Skills:** Problem-Solving, Quick Learner, Adaptability

INTERNSHIP

- **EniacworldMedia Pvt Ltd - SDE-Intern** | [Link](#) Feb 26 – Apr 26
 - Enhanced core website features, increasing user engagement and improving platform usability.
 - Worked on frontend tasks including building responsive UI components, resolving layout issues, and assisting in API integration using React, JavaScript, and REST principles.
 - Delivered measurable results by enhancing page responsiveness, reducing UI inconsistencies, and completing all assigned modules on time, ensuring smoother user experience.**Tech:** MongoDB, Express.js, React.js, Node.js, Next.js

PROJECTS

- **Aura – Ai Interview** | [Live-Demo](#) | [GitHub](#) May 26
 - Built an AI-powered mock interview platform using Next.js, Node.js, Socket.IO, and LLM workflows for real-time voice and text-based interview simulations.
 - Integrated Google Gemini API with Deepgram STT/TTS for live transcription, AI-generated follow-up questions, and adaptive voice responses.
 - Developed a secure backend with Prisma ORM, Neon PostgreSQL, JWT authentication, and RAG-based resume-aware interview evaluation.**Tech:** Next.js, React.js, Node.js, Express.js, Neon PostgreSQL, Prisma ORM, Tailwind CSS
- **Yapp- Encrypted Real-Time Chat Application** | [Live-Demo](#) | [GitHub](#) Dec 25
 - Engineered a low-latency chat platform with features including messaging, media sharing, reactions, and read receipts, achieving sub-200ms latency by leveraging MERN stack and Socket.io
 - Secured 100% of user sessions and messages leveraging JWT, HTTP-only cookies, bcrypt, and AES-256-GCM encryption.
 - Integrated WebRTC-based audio/video calling supporting real-time peer-to-peer communication with low latency.**Tech:** MongoDB, Express.js, React.js, Node.js, Socket.io, JWT, Cloudinary, Tailwind CSS

TRAINING

- **Cipher Schools – Full Stack Web Development:** [Link](#) Jun 25 – Jul 25
 - Completed an intensive Full Stack Web Development training program at Cipher Schools.
 - Architected and deployed responsive applications with REST APIs, authentication, and database integration.
 - Acquired hands-on experience in Git, GitHub, version control, and collaborative development workflows.**Tech:** HTML, CSS, JavaScript, React, Node.js, Express, MongoDB.

CERTIFICATES

- NPTEL Certification in Cloud Computing – NPTEL | [Certificate](#) Apr 25
- Data Structure and Algorithms with C++ – Cipher Schools | [Certificate](#) Nov 24

EXTRACURRICULAR

- Disaster Management Web Application ranked in the Top 10 projects at Tech Fest. Jan 25
- Solved 200+ coding challenges across platforms, sharpening algorithmic skills. Jan 25

EDUCATION

- **Lovely Professional University** Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; **CGPA: 8.94** Aug 23 – Present
- **Mount Carmel Sr. Sec. School** Hoshiarpur, Punjab
Intermediate; **Percentage: 89.5%** Apr 21 – Mar 23
- **Mount Carmel Sr. Sec. School** Hoshiarpur, Punjab
Matriculation; **Percentage: 93.2%** Apr 20 – Mar 21
